

CLEANING SERVICES

Medical and Dental Office

What is Medical and Dental Office Cleaning?

We offer specialized healthcare and medical office cleaning services that align with OSHA standards for medical environments. A medical facility must provide a healthy environment for patients and staff down to the microbial level. Some visitors to clinics, hospitals and doctors' offices have vulnerable immune systems or contagious illnesses, and only specialized healthcare cleaning services can protect against the spread of germs!

Lobby/Office/Halls:

- Dust all furniture, including desks, chairs and tables
 - Spot clean desktops
- Dust all exposed cabinets, bookcases and shelves
